

THE PREMIER PROCESS

You are on your way to building one of the highest performing building envelopes available. When you choose Premier SIPS you are making a positive impact to create more energy efficient, stronger, and healthier commercial and residential structures. The SIP shop drawing and Production process depends on a number of factors. The most important thing to remember is that this is a two step process: First we must work with you, our client, and possibly 3rd parties to create the SIP Layout Drawings, and once completed we enter the production schedule.

The text box colors in each stage of the process have been broken into two categories:

Client Responsibility

Premier SIPS Responsibility

Due to the extreme variability in the time it takes for projects to progress through the drawing process, it isn't possible for us to reserve a production slot until step #6.
