

FABRICATED DISPLAY SHAPES

Expanded Polystyrene Insulation.

R-Shield® expanded polystyrene insulation includes an ingredient you won't find in other expanded polystyrene products. Control. R-Shield insulation gives you control over the design of your project. You determine the shape and specs of the expanded polystyrene components you need, then your R-Shield insulation supplier works with you to deliver them on time and within budget.

Expanded polystyrene is an amazingly strong and versatile material. Consisting of over 95% air, R-Shield insulation is available in a range of Types to provide the properties needed for your design. R-Shield insulation is compatible with a variety of coatings and treatments to create extraordinary visual effects.

R-Shield insulation shapes are custom fabricated by hot wire cutting with computer aided design, and if necessary, assembled together to provide a solution specific to your needs.

R-Shield insulation means that you can achieve product designs that wouldn't be possible with other materials.

FOAM FACTS: R-Shield Display Shapes.

- CAD design and assembly can create effective 3-D display shapes
- Computerized fabrication equipment
- Well suited for lower volume items
- Available in a range of strengths
- Lightweight - reduces shipping costs
- Compatible with multiple finish coatings

Recyclable.

After it's life as a fabricated shape, R-Shield is 100% recyclable. It can be ground into granules and reincorporated into new R-Shield products or it can be thermally processed into a resin that's used to manufacture other new products.

Ready to take control? Start here.

If you're ready to have R-Shield contribute to your next project, just contact your Premier Building Systems Technical Sales Representative. They will be happy to give you design consultation, information about R-Shield products, pricing, and answers to all of your questions.
